How to play

- Who will be the first to find all 11 letters in the words "Happy Easter"?
- One player volunteers to be the **Top Secret Letter Hider Person (TSLHP)**. This person hides all of the letters from the other players. Make it as hard or easy as you want!
- All players download the **Upstart Easter Hunt** app (if you're a child, ask an adult to do this for you)
- All players gather round the TSLHP, and open the app. The TSLHP calls out "3, 2, 1, GO!". The other players all tap the "Go" button on the app.
- The players race to **find all 11 letters** and **scan the QR codes** using the app.
- Fastest time wins!
- If there are any disagreements, the TSLHP is the judge.
